

Yashodhan Zingade

Mumbai, India | +91 8149414692 | zingadeyashodhan@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Electrical Engineering undergraduate with practical experience in power systems, transformer protection, blockchain development, cybersecurity fundamentals, analytics, and industrial operations. Proficient in Python, MATLAB, Simulink, C++, Solidity, Git, data analysis, automation tools, leadership, and technical project execution.

EDUCATION

Veermata Jijabai Technological Institute (VJTI), Mumbai Jun 2023 – Jun 2027
Bachelor of Technology in Electrical Engineering — Minor in Electric Vehicles — CGPA: 8.36/10

EXPERIENCE

Heavy Electricals Intern Dec 2025 – Jan 2026
– Analyzed supply chain, inventory, procurement, and production data for control panel manufacturing operations.
– Prepared reports for management, human resources, and operations to improve workflow efficiency and decision-making.

Industrial Trainee – Transformer Manufacturing Nov 2024
– Studied transformer design, testing, assembly lines, quality control, plant workflow, and industrial safety procedures.

PROJECTS

Transformer Differential Protection — MATLAB, Simulink, ESP32 2025
– Designed relay logic for internal transformer fault detection using differential current comparison.
– Simulated tripping response to improve protection speed, selectivity, and reliability.

Smart India Hackathon Platform — Blockchain, Full Stack Dec 2024
– Developed a secure digital transaction platform with scalable backend architecture.
– Integrated frontend, backend, and blockchain modules for efficient operations.

Power System Analysis — MATLAB, Simulink Oct 2024
– Performed load flow, short-circuit, voltage regulation, and transmission loss analysis.
– Evaluated grid stability and optimized electrical system efficiency.

Li-Fi Research — Visible Light Communication, IoT Mar 2024
– Researched LED-based visible light communication using photodiode receivers.
– Compared Li-Fi and Wi-Fi for secure, high-speed IoT applications.

Healthcare Blockchain Platform — Ethereum, Solidity, IPFS Jan 2024
– Built a decentralized healthcare records platform using smart contracts and secure access control.
– Won Second Place in Inheritance 2024 among multiple competing teams.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript, Bash, Solidity
Software and Tools: MATLAB, Simulink, Git, GitHub, VS Code, Excel, COMSOL, FEMM, Tally
Core Domains: Power Systems, Electrical Machines, Protection Systems, Blockchain, Cybersecurity, Data Analysis

CERTIFICATIONS

Blockchain Architecture Design and Use Cases – LearnQuest (Coursera)
Introduction to Cyber Attacks – New York University (Coursera)

LEADERSHIP AND ACTIVITIES

Community of Coders, VJTI 2023 – 2024
– Promoted from Mentee to Maintainer; mentored junior students and conducted Git, GitHub, and MATLAB workshops.

Rangwardhan Fest Coordinator 2024 – 2025
– Managed operations for more than 2,000 attendees and coordinated Chief Guest Hon. Education Minister Deepak Kesarkar.
